

Rodgers House committee meeting,

July, 23, 2014

We had an early meeting with the committee members regarding the location of the gazebo, after much discussion we decided on relocating the gazebo to a new location under the dawn redwood tree. We will be having a new stone work foundation for the gazebo and it will be off the main patio, thus giving us more room. Melanie Kett contacted Josh and he will be giving us a bid to do the work.

There was a lot of discussion about the usage of the patio, and gazebo, under the contract we have with the fairgrounds any usage of the house, or patio area we are to be contacted. This last week ends the patio and gazebo was used, confetti was all in the flower beds, patio, back porch and etc. Melanie was quiet upset to see the patio being used without someone from the committee knowing about it.

Trisha gave Dave a check for the beginning of the plans for the new bath room and kitchen for the Heritage Hall.

I will be contacting Jeff and have him come and tell us what kind of plants we need to plant along the fence. Our large plants were taken out for the upgrade of the sewer project, we need to block out the parking lot for privacy during functions on the patio.

John Barr came by and asks us if we would be interested in having the house open for the Gala on Tuesday night of the fair. We will accommodate his request. The time will be 6; 30-7; 30. Since we will be giving tours from 2-6 that is the earliest we can have the house open.

The members present and guest as well: Kennette Roberts, Sue King, Trisha Kett, Melanie Kett Wirtanen, Rhea De Hart, Heloise Schaser, Sharon Willis, Jolene Vukasovich, Susan Jacobs, Janis West, and Loretta Estrada. The tour #11 was handed out, and the signup sheet for the tours. After the meeting Trisha took the new members on a mini tour, and given then what information they would need during the fair.

After the meeting Josh arrived and we discussed the location of the stone work to me done around the redwood trees, he will be starting within the next week. The large rocks need to be removed, as well as the black pipes.

The new location of the gazebo will be discussed within in a bid at a later time. It would be wonderful if all of this was finished before the fair! But we will see what magic we can accomplish.

The meeting was over at 3; 10.
