

Rodgers House Committee meeting

June 22, 2016

Members present, Sue King, Kennette Roberts, Connie Hernandez, Marilyn Hoyt, and Loretta Estrada. Trisha and Melanie were both on vacations.

Connie had the glass replaced at Delta Glass and we gave her back the \$270.00 for the bill of which she paid.

The water system around the house does not seem to be coming on, I called and spoke to Rafael 2381076 and he will be at the house on Thursday at 3 pm to see what is going on. Connie and Marilyn will be there to watch him and learn the system if they can.

Kennett informed us she is having her son's wedding at her home just before the fair, and probably will not be able to help much during the fair, hopefully she can be with us on the Friday night tours, and her cookies make the evening. If she cannot be there we will ask Jody to bake cookies for the guest.

July 27th meeting will be the docent training; we cannot believe it is that time of the year again. Hopefully Trisha will contact the newspapers and mention we will be having the training that day. We filled up all the slots last year at the meeting. Since we only use 2 guides a day it is really easy to fill up all the slots.

We will have a Friday night candle light tours again this year, starting at 6; 30- till 8; 30. The 30 minute time will give us a few more minutes between closing and opening.

We will not have the house open on Tuesday night, this way we can enjoy the Heritage Foundation's function as well.

August 21st, Lynn Marsh will be using the patio for a luncheon, we will have the house open for her, and she is a member of the Rodgers family and has donated a lot of family items to the house.

We have not heard if the family park will take place this year or not, Connie is still trying to be in contact with Lynette Peppin and see if she would like to be the department head. If we do not have the park open this year, hopefully it will happen next year.

Connie has been working a lot in the yard cutting back some plants; Trisha has kept the watering up.

We would like for Melanie to ask the man who made the beautiful sign last year to place it where we wanted it last year. He did not put the post in cement so it should be easy to take out and put it where it should be. Also the lower part of the post should be painted, it was put in at the last minute last year and he only put one coat of paint, (or so it looks like that).

Meeting adjourned and some of the ladies were out looking at the redwood dead trees. I need to talk to Dave and see what he thinks we need to do. There was green on some of the limbs but now they are dead as well. If we go through the fair, I feel we need to really find out IF they can be saved or should we have them taken out and put in another tree.

Sincerely

Loretta Estrada
